

||| Quality cutting boards

from thermoplastic material
for trouble-free cutting
of soft materials.

 Made in Germany

Our »Starline«

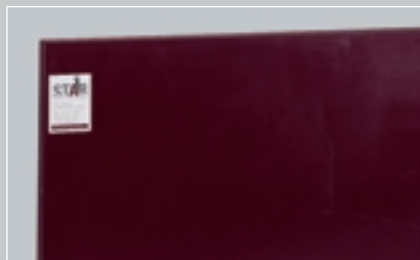

cutting boards form a single unit with the cutting machine and the cutter and are thus key to the quality of the cut.

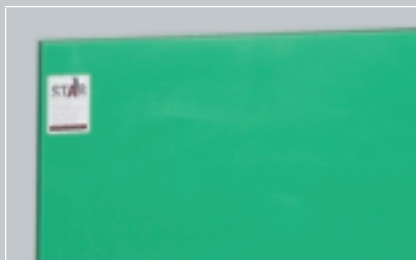

|||A| STAR 85

|||B| STAR 75

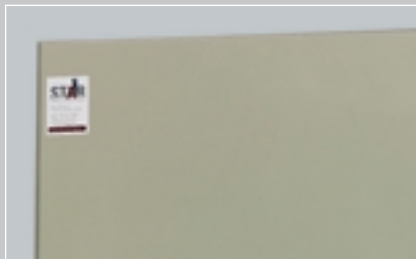

|||C| STAR 70

|||D| STAR 69

|||E| STAR 73

|||F| STAR 75E

|||A| STAR 85

For difficult to cut materials

|||B| STAR 75

Universal plate – can be used for nearly all materials

|||C| STAR 70

Suitable for leather and thicker materials

|||D| STAR 69

For leather and paper die-cuts

|||E| STAR 73

Colored regenerative quality with very good cutting characteristics

|||F| STAR 75E

For rolling Roller presse and as pad for manual cutting

Standard dimensions

900 x 450 x 10 - 120 mm	4000 x 2000 x 10 - 120 mm
2000 x 1000 x 10 - 120 mm	4900 x 2450 x 10 - 90 mm
3000 x 1500 x 10 - 80 mm	

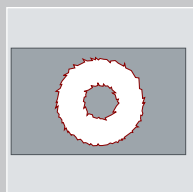

Press blank: +/- 2 mm smooth

Planed: +/- 0,2 mm smooth

Other dimensions upon request.

Put an end to these problems!

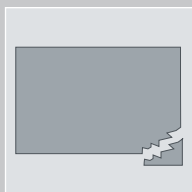

High-quality cutting boards increase the operating life of your cutting tools, the production speed and the quality of the cut.

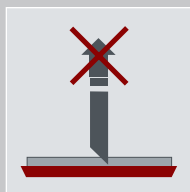

Unclean cuts.

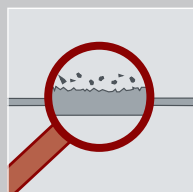

Bent plates.

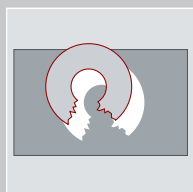

Broken edges.

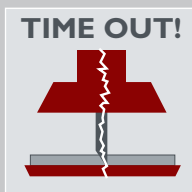

Stuck cutters

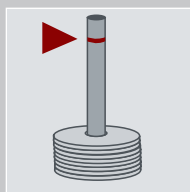

Crumbling surfaces.

Jamming cut material.

Short useful life.

Low production speeds.

We'll show you how!
